The Honorable Henry S. Reuss  
Chairman, Conservation and Natural  
Resources Subcommittee  
Committee on Government Operations  
House of Representatives  
Washington, D. C. 20515

Dear Mr. Chairman:

Thank you for your letter of August 6, 1970, concerning air pollution abatement at Federal installations.

All Agency-occupied Federal installations, on which you have requested information, are maintained by and will be reported by the General Services Administration.

If there is further information, which you would like relating to this matter, please let me know.

Sincerely,

John M. Maury  
Legislative Counsel

1. Since this Agency does not have the responsibility for the maintenance of any overt Federal installation, I propose that we advise the Subcommittee that that information will be provided directly by GSA in its overall report to them. Any installations under cover [redacted] would, of course, be reported in due course by the cover organization. To do otherwise would compromise the facility.

Att PS - As of this date Region III, GSA has not received a copy of the Committee request. But have indicated they will report our installation when they do. 24 Aug 70

28 August 1970

Lyle:

I have discussed this with Jack who agrees with my suggestion that you go up and see somebody on Reuss' staff to explain the way we plan to answer his letter. One hooker in this (see 's routing sheet note) is that by our last word GSA had not been queried by Reuss. We had better nail that down too. Over to you.

Please let us know if there are any problems in replying to the attached request. As you may recall, we received a similar request from the Reuss Subcommittee last year and eventually our response was based on an agreement with a Subcommittee staff member that GSA's report would include all Agency installations. The present request seems broader in scope, however, as it applies to a number of recently created air quality control regions.

If you want to dig deeper into this before bucking it on to Logistics, you're welcome to look over our file on how this was handled last year.

Our report back date is no later than 14 Sept. It's been SOP for us to make interim replies, but we'll hold off doing this until you've had a chance to review in case you'd like us to obtain further information from the Subcommittee first.
